A Banker's Mistake.

"I recently heard," said Mr. Gage, "of a banker in Wisconsin, a man of iron firmness, who, hearing of bank troubles in many localities, determined that he would not lend a dollar, but would collect every claim due. The would be borrower, from whose mind the illusion had not yet been dissipated that a bank was a fountain from which wealth flowed, was shocked and pained. He went about among other members of the community expressing his grief that this banker was in such a distressing situation. Certain depositors put their own construction upon the meaning of all this. Within a week the banker himself was a humble borrower in Chicago, having paid in hard cash 25 per cent of his liabilities to the community which had lost faith in him."—Chicago Journal. -Chicago Journal

On submitting the latter to distillation prussic acid was found in the condensed products, and a larger yield of the acid was obtained when the nitric acid was allowed to drop slowly into the sugar solution from a tap funnel. THE NEW WAUKEGAN BARBED WIRE.

Made only by Washburn & Moen Mf'g Co.

We have been appointed Agents for the above Company, and have just received per Steamer "KEAUHOU" the first shipment of this famous barbed wire. We sell the "Waukegan" 4 Point with barbs 3 in. apart, and it measures 16½ ft. to the pound. You cannot build a fence with any other make of barbed wire as cheap as you can with "Waukegan."

Take the following makes for instance, all 4 point, barbs 3 in. apart:

N. and M. 15.30 ft. to 1 lb, or 7.81 per cent, in favor of Waukengan.

Baddock Wire Co., 12.62 ft. to 1 lb. "30.75 ""

Roebling Co., 11.29 "1" 46.15 ""

Cleveland, 11.83 "1" 39.48 ""

Indiana Wire Fence Co., 12.87 ft. to 1 lb. or 28.21 per cent. ""

Burnell, 13.77 "1" "19.83 ""

Waukegan Barbed Wire is as strong as the strongest, contains just as many barbs to the rod, and yet weighs less per rod than any other style of barbel wire. This result is accomplished by using a half round wire in the barb, instead of a full round wire as in all other barbed wires; then it is twisted out once around one of the main wires, thus saving the weight of additional twists. This wire is thoroughly galvanized, something much needed in this climate.

We also sell a special wire stretcher and galvanized steel staples for Waukegan Wire.

All orders for the above, or for plain Galvanized or Black Fence Wire and

Waukegan Wire.
